

Personal Readings

A personal reading is a doorway to self-discovery through a consultation with someone who has a heightened awareness and can neutrally observe and provide relevant information and insight for an individual's self-realization.

A personal reading with the Teacher, who is the primary being the Earth Oracle brings through, may be in-person or by phone. The Teacher is five different non-physical beings, each with its own personality - from gentle to stern.

Readings with the Teacher are very direct. They address what you need to know. Best to be prepared with plenty of questions. And understand the Teacher may refrain from discussing certain psychological issues.

Because the Teacher is not a physical being, he may be talking about the future even though it may sound like the present. It is recommended you do not throw any of the information you receive away, but wait and see what unfolds.

These are private readings. None of the information spoken to the client is retained. It is up to each person to use the information they receive as they wish.

If you want to record your reading, you will need to have your own recording device on hand.

The cost of a reading with the Teacher is \$190.00

To schedule a reading, please provide your name and contact information in an email, with the best times you can be reached by phone.
